

Summer Camp

Weekly Log

Name: SURYANSH VARHSNEY

Roll No.: 2022519

Date: 01/06/2024

Subject and Activity: AstroGeo and Art&Craft

Weekly Goals:

AstroGeo: Introduction and History to Universe

Art&Craft: Introduction to Quilling

Topics Taught: History of Universe, Big Bang and Information about Solar System and Galaxy.

Activity did: Quilling

Extra Work: Mess duty

Detailed Log:

Date	Subject	Activity	Extra Work	Total Duration
27/05/2024 – 31/05/2024	AstroGeo (2hrs/session)	Art&Craft (2hrs/session)	Mess Duty (1 hr/ session)	21 Hrs

In AstroGeo and Art&Craft:

I was one of the two main teacher who taught the whole class in AstroGeo. Moreover in Art&Craft, each of us volunteer was assigned a group of 5-6 students so that we can guide the students through the activity.

I had duties related to taking students' doubts, managing students and their attention towards the class, and allowing them to have fun while simultaneously keeping them in the discipline. And most importantly impart knowledge and instigate curiosity about vast Universe we live in.

Ensuring uniform participation from the class in activities and quizzes, Managing the mess coupon supply and distribution and clicking pictures are also some work I had to do as an instructor.

Extra work:

Taking care of the students and maintaining que while taking to mess and bringing them back.

During closing time, I took students to their corresponding gates after maintaining the queue safely.

And after that calling FMS to get the halls cleaned up.

Ongoing AstroGeo and Art&Craft Classes:

This week was especially fun, we got the chance to give the children real hands-on experience of solar observation, where we had them watch the sun via a reflecting telescope with a solar filter on.

Extra work:

Taking care of the students and maintaining que while taking to mess and bringing them back.

During closing time, I took students to their corresponding gates after maintaining the queue safely.

And after that calling FMS to get the halls cleaned up.

This was the last week of the summer camp. Over the course of 4 weeks, everyone of us had formed a bond with all of these kids. It was a great opportunity to be able to impart our knowledge to these small kids. The ending ceremony was fun too. We all enjoyed a lot.

Extra work:

Taking care of the students and maintaining que while taking to mess and bringing them back.

During closing time, I took students to their corresponding gates after maintaining the queue safely.

And after that calling FMS to get the halls cleaned up.
